Kata Pembuka

Welcome note

Welcome to this special painting exhibition catalog, a heartfelt collaboration between the Malu Dong Community and local Balinese artists, presented in celebration of Malu Dong's 16th anniversary.

This catalog features a thoughtfully curated collection of artworks — each one created not only to inspire visually, but also to carry a powerful message of purpose, reflection, and environmental awareness. Through art, we invite you to pause, reflect, and connect with the deeper issues affecting our beloved island of Bali.

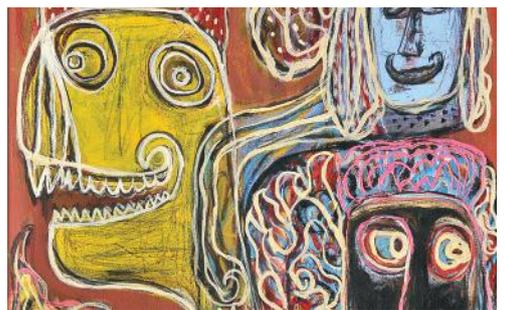

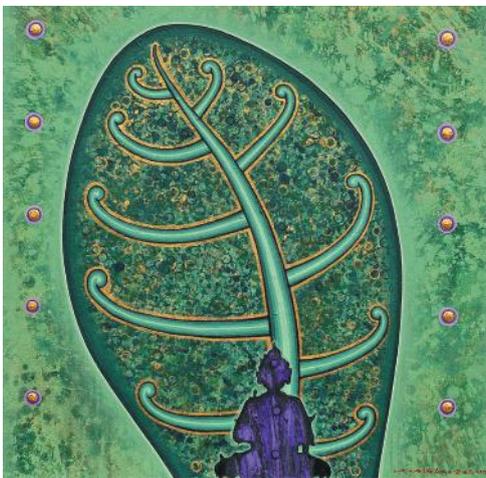

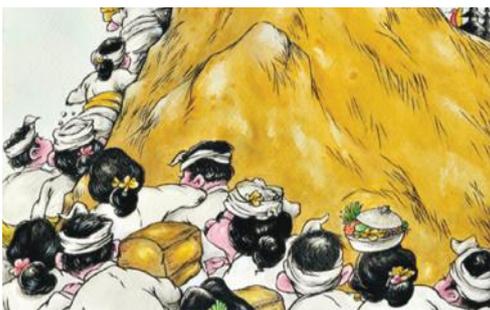

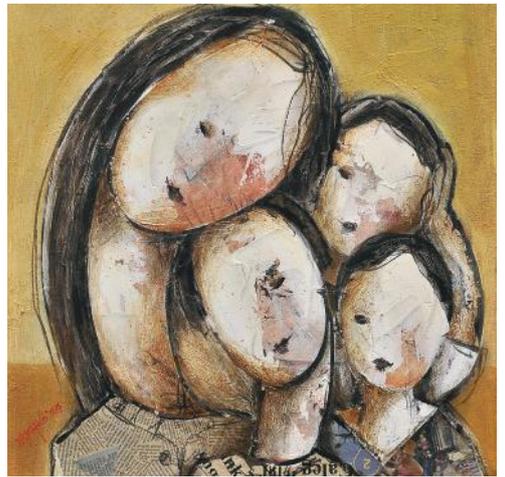

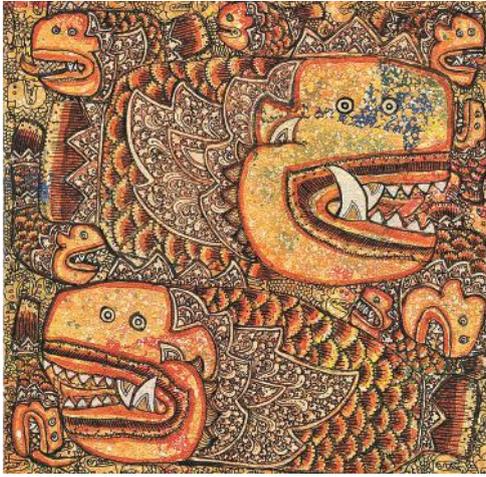

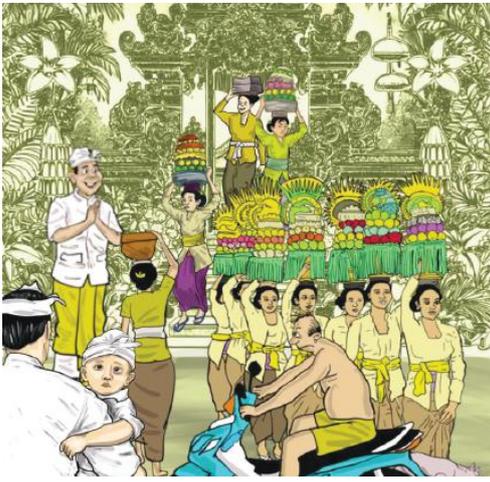

Malu Dong is a Bali-based environmental community committed to protecting and restoring nature, with a strong focus on reducing plastic pollution before it reaches the ocean. Through public campaigns like Malu Dong Buang Sampah Sembarangan (Shame on Littering), the community aims to shape a more conscious and responsible generation.

The ongoing waste crisis in Bali is more than just a problem of materials — it is a call to re-examine our behavior, our choices, and how we respond as a society. Plastic pollution not only threatens Bali's pristine beaches and marine ecosystems, but also its public health and global reputation as a world-class destination.

In this light, art becomes a movement. Each piece in this exhibition is more than an aesthetic expression — it is a contribution to a larger cause. By appreciating and owning these works, you are supporting both local creative voices and a community movement committed to environmental change.

We invite you to explore the pages of this catalog, discover the stories behind each painting, and join us in making a difference — for the arts, for Bali, and for our shared future.

Thank you for your support and appreciation.

Sudakara ArtSpace at Sudamala Resort, Sanur

is one of Bali's most significant and cutting edge showcases for contemporary art, as well as a vital incubator for new talent and rising stars. The gallery sits front and centre of the hotel, which indicates the importance attached to the project and demonstrates how a love of art has become an integral part of the taksu, or spiritual essence and soul, of Sudamala Resort, Sanur.

The 250-square-metre art space, Sanur's largest professionally-curated gallery, features regular exhibitions mainly by local and foreign artists residing in Bali.

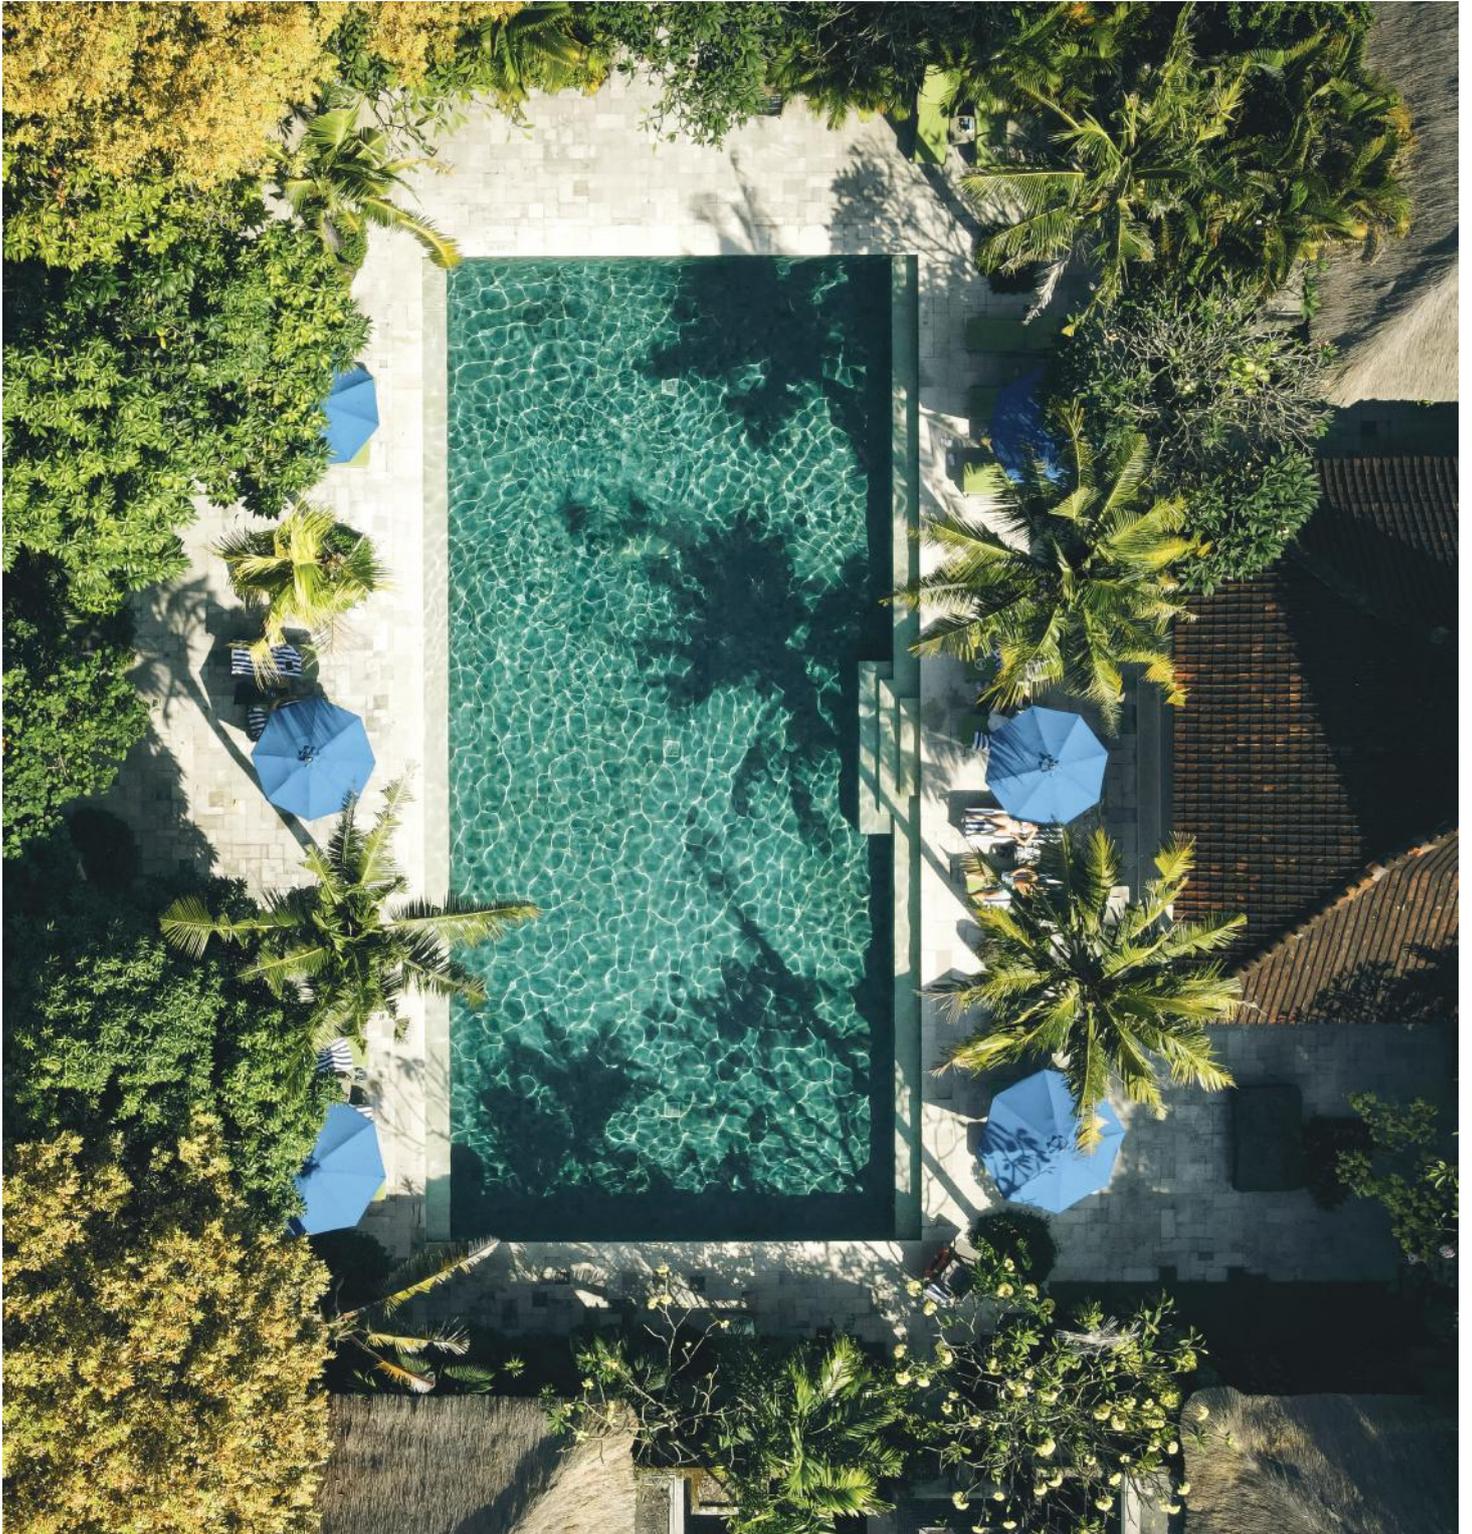

It often juxtaposes the works of two strikingly different styles of art to explore the spaces which exist between artworks and the themes that draw them together. Beyond exhibitions, Sudakara endeavours to nurture a visionary environment for intercultural dialogue and art exchanges.

Sudamala Resort, Sanur

Bali: the artistic heart of majestic sanur

Set in the midst of this great historical setting, at the southern end of Sanur where the coastline sweeps away to the west and Bali's sun rises each morning, Sudamala Resort Sanur is an oasis for those who crave an authentic cultural experience.

Sudamala Sanur is home to 34 expansive suites nestled around spacious inner courtyards, as well as an international alfresco restaurant, dedicated spa and yoga space, a sparkling pool and intimate event spaces.
